

## Story 39: Get Ready for a Famine

Joseph listened as Pharaoh told about his two dreams. Then Joseph told him that the two dreams had the same meaning. The dreams showed what was going to happen in Egypt. For seven years Egypt would have plenty of grain for food. Then for the next seven years, Egypt would not have enough grain. There would be a terrible famine in Egypt. Joseph told Pharaoh to choose a wise person to help Egypt get ready for the years of famine. This person could collect grain during the seven good years and store it in the cities. Then they could use the stored grain during the seven bad years. Pharaoh liked Joseph's plan.
